

DID YOU KNOW?

Injuries due to slips and falls can be some of the most severe and costly workplace incidents. In fact, within the CMCA Safety Group, slips and falls account for over 1/3 of all workers compensation costs. These types of injuries also happen very frequently – 23% of all claims in the past 3 years were caused by slips and falls.*

The Colorado Motor Carriers Association, along with our Partners at Pinnacol Assurance and Flood and Peterson, are here to help you prevent those injuries from happening!

The CMCA Association Safety Program

- The CMCA Association Safety Program can save you up to 4% on your workers' compensation premiums.
- As a member of the CMCA Association Safety Program, you have access to dedicated professionals to work through injury reporting, return-to-work cases and injury management.
- Based on the safety record of the Association Group, members have the potential to receive safety dividends.
- In 2018, Pinnacol Assurance returned over \$600,000 to CMCA Association members.

The Pinnacol Assurance Difference

- Pinnacol has decreased rates for four consecutive years and paid out \$70 million in general dividends to our customers.
- With over 100 years of workers' compensation experience, Pinnacol has the industry expertise to help your business with its unique needs.
- Pinnacol has the largest, most skilled Safety Services team in the state and can help improve risk management, leading to fewer claims.
